

TOYOTA

SAFETY RECALL 25TA11 (*Interim Notice 25TB11*)

Certain 2025 Model Year Tacoma and Tacoma HV
Front Axle Shafts May Break

STOP! DO NOT SELL NEW VEHICLES IN DEALER INVENTORY.

Refer to Dealer Inventory Procedures section for more details.

On October 1, 2025 Toyota filed a Defect Information Report (DIR) with the National Highway Traffic Safety Administration (NHTSA) informing the agency of our intent to conduct a voluntary Safety Recall on certain 2025 model year Tacoma and Tacoma HV vehicles.

Model / Years	Production Period	Approximate Total Vehicles	Approximate Stop Sale Dealer Inventory
2025 Tacoma	Late January – Early March	3500	15
2025 Tacoma HV	Late January – Late March	2400	100

Condition

Toyota is conducting a safety recall involving certain MY 2025 Tacoma 4-wheel drive vehicles. A part used in the front driveshaft joints in the subject vehicles may not have been manufactured with the correct material and can deform or break while driving. If it deforms or breaks, the driver may not be able to complete a turn as intended. If the part breaks, and the vehicle is a full-time 4WD model, the vehicle may move while the transmission is in "Park" without the Electronic Parking Brake applied. This may increase the risk of a crash.

Interim Rental Available

Available see instruction in letter

Owner Notification Date

Late November 2025

Remedy (Not Available)

Toyota is currently preparing the remedy. When remedy becomes available, dealers will inspect the front drive shaft assembly serial numbers and replace one or both front drive shaft assemblies for all involved vehicles if found to be from the affected production period **FREE OF CHARGE**. Toyota estimates remedy will become available in Quarter 4 of 2025.

Owner Notification

Mail

Toyota will notify owners by late November 2025.

Toyota App

Vehicles involved in this Recall will be visible in the App at time of announcement.

Media Contacts

It is imperative that all media contacts (local and national) receive a consistent message. In this regard, all media contacts must be directed to Toyota Newsroom pressroom.toyota.com.

Service Department

Warranty Reimbursement Procedure

Loaner Vehicle or Alternative Transportation Reimbursement Procedure

A loaner vehicle or alternative transportation through Rent a Toyota can be claimed for \$60 per day.

Op Code	Description
TBD	Vehicle Rental 1-30 Days
TBD	Vehicle Rental 31-60 Days
TBD	Vehicle Rental 61-90 Days

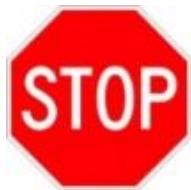

NOTE:

- Rental invoice **MUST** be attached to all rental claims. These claims may be subject to debit if rental invoice is not attached.
- Rentals that exceed the maximum allowable daily rate will require DSPM authorization per the Toyota Transportation Assistance Policy (TTAP).
- Dealers will be allowed to file these Op Codes up to 90 days after the final phase has launched into remedy. After that time, no claims for alternative transportation reimbursement will be accepted

Sales Department

New Vehicles in Dealership Inventory

There are approximately 115 vehicles in new dealer inventory as of September 30, 2025

Under Title 49, Section 30112 of the United States Code, a dealer cannot sell, offer for sale, or introduce or deliver for introduction in interstate commerce a new motor vehicle when it is aware that the vehicle does not comply with an applicable Federal Motor Vehicle Safety Standard or contains a defect related to motor vehicle safety. Further, 49 Code of Federal Regulations §577.13 requires us to provide the following advisory: It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied.

Toyota reimburses dealers for flooring costs associated with new vehicles held in dealership inventory until the recall remedy becomes available. Toyota provides these flooring reimbursements within 30 days of remedy notice. Toyota reserves the right to withhold or charge-back any flooring reimbursement funds that may have been paid to the dealer if it determines that a new vehicle subject to a safety recall was sold without first being remedied.

Vehicle Safety Recall completion should always be verified through TIS. We request your assistance to ensure involved vehicles are identified and not delivered prior to performing the remedy.

NOTE:

- New vehicles in dealer inventory subject to a Safety Recall must be remedied before delivery into commerce under a sale or lease. Dealer-to-dealer trades as well as vehicle sales between dealers should not be made until a vehicle is remedied.***
- Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily (Non SET and GST dealers: <https://dealerdaily.toyota.com/>). The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

Inspection Reminder Mirror Hang Tags for Covered Vehicles in New Dealer Stock

To easily recognize vehicles involved in this Safety Recall, each dealership should utilize Inspection Reminder Hang Tags. Inside the vehicle's glove box are stickers containing the VIN. Apply one of these stickers to the hang tag and install the hang tag in the vehicle. A sample copy of the Inspection Reminder Hang Tag has been included for your reference.

NOTE: Dealerships can order hang tags from the Material Distribution Center (MDC).

Part Number	Description	Quantity
00411-140003	Inspection Mirror Hang Tag	25 Per Pack

Frequently Asked Questions

Q1: What is the condition?

A1: Toyota is conducting a safety recall involving certain MY 2025 Tacoma 4-wheel drive vehicles. A part used in the front driveshaft joints in the subject vehicles may not have been manufactured with the correct material and can deform or break while driving. If it deforms or breaks, the driver may not be able to complete a turn as intended. If the part breaks, and the vehicle is a full-time 4WD model, the vehicle may move while the transmission is in "Park" without the Electronic Parking Brake applied. This may increase the risk of a crash.

Q2: What is Toyota going to do?

A2: Toyota is currently preparing the remedy. When remedy becomes available, dealers will inspect the front drive shaft assembly serial numbers and replace one or both front drive shaft assemblies for all involved vehicles if found to be from the affected production period **FREE OF CHARGE**.

Q3: When will the remedy become available?

A3: Toyota is currently preparing the parts and repair instructions for the remedy. At this time, Toyota estimates that the remedy can be available quarter 4 of 2025

Q4: Are there any warnings that this condition exists?

A4: The driver may hear an initial abnormal noise, and it may be quickly followed by an increased effort needed for steering. Drivers of full-time 4WD models may experience a loss of driving force from a stop.

Q5: Which and how many vehicles are covered by this Safety Recall?

A5: There are approximately 6,000 vehicles covered by this Safety Recall.

Model / Years	Production Period	Approximate Total Vehicles
2025 Tacoma	Late January – Early March	3600
2025 Tacoma HV	Late January – Late March	2400

Q5a: Are there any other Lexus/Toyota/Scion vehicles covered by this Safety Recall in the U.S.?

A5a: No, there are no other Lexus/Toyota/Scion vehicles covered by this Safety Recall.

Q6: How long will the repair take?

A6: The repair takes approximately 2 hours. However, depending upon the dealer's work schedule, it may be necessary to make the vehicle available for a longer period of time.

Q7: How does Toyota obtain my mailing information?

A7: Toyota uses an industry provider who works with each state's Department of Motor Vehicles (DMV) to receive registration or title information, based upon the DMV records. Please make sure your registration or title information is correct.

Q8: What if I have additional questions or concerns?

A8: If you have additional questions or concerns, please contact the Toyota Brand Engagement Center at 1-888-270-9371 Monday through Friday, 8:00 am to 8:00 pm, Saturday 9:00 am to 7:00 pm Eastern Time.

Policies And Procedures

New Vehicles in Dealership Inventory - Reminder

Below is a reminder of the dealer's obligations pertaining to Safety Recalls if there are new vehicles in dealership inventory:

Under Title 49, Section 30112 of the United States Code, a dealer cannot sell, offer for sale, or introduce or deliver for introduction in interstate commerce a new motor vehicle when it is aware that the vehicle does not comply with an applicable Federal Motor Vehicle Safety Standard or contains a defect related to motor vehicle safety. Further, 49 Code of Federal Regulations §577.13 requires us to provide the following advisory: It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied.

Vehicle Safety Recall completion should always be verified through TIS. We request your assistance to ensure involved vehicles are identified and not delivered prior to performing the remedy.

NOTE: Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily (**Non SET and GST dealers:** <https://dealerdaily.toyota.com/>). The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

Pre-Owned Vehicles in Dealer Inventory

Toyota typically requests that dealers **NOT** deliver any pre-owned vehicles in dealer inventory that are covered by a Safety Recall unless the defect has been remedied. In this case, until remedy parts are available, delivery of a pre-owned vehicle is acceptable if disclosed to the customer that the vehicle is involved in this Safety Recall and that the remedy is currently being prepared by Toyota.

Toyota expects dealers to visit <https://toyota-recall-disclosure.imagespm.info/> and complete a Customer Contact and Vehicle Disclosure Form. Dealers are expected to provide a copy of the completed form, along with the most current FAQ, to the vehicle buyer. Toyota and the dealer may use this information to contact the customer when the remedy becomes available. Keep the completed form on file at the dealership.

NOTE: Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily (**Non SET and GST dealers:** <https://dealerdaily.toyota.com/>). The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

Toyota Certified Used Vehicle (TCUV)

The TCUV policy prohibits the certification of any vehicle with an outstanding Safety Recall, Special Service Campaign, or Limited Service Campaign. Thus, no affected units are to be designated, sold, or delivered as a TCUV until all applicable Safety Recalls, Special Service Campaigns, and Limited Service Campaigns have been completed on that vehicle.

Rent a Toyota & Service Loaners

Toyota requests that dealers remove all Rent a Toyota and Service Loaner vehicles from service that are covered by a Safety Recall unless the defect has been remedied.

Parts Recovery Procedures

All parts replaced as part of this Safety Recall must be turned over to the parts department until appropriate disposition is determined. The parts department must retain these parts until notification via the Parts Recovery System (PRS) is received indicating whether to ship or scrap the parts. These parts are utilized by various departments for defect analysis, quality control analysis, product evaluation, as well as other purposes.

To help minimize dealer storage challenges, Toyota recommends that dealers:

- File the campaign claim accurately and promptly. The time a dealer is required to hold parts is based on when the campaign claim is paid by Toyota.
- Monitor the Warranty Parts Recovery Notifications and Part Scrap Report regularly.

Refer to Warranty Policies [9.3](#) and [9.6](#) for additional details.
